- 4 -

**4. Charging Your Bluetooth Stereo Headset**

Make sure that your Stereo Headset is fully charged before using it. Use only the charger provided do not use chargers from any other devices as this might damage the device. A full charge is approximately 2 hours.

**5. To Charge Your Bluetooth Headset**

1. Use the charger to charge from a charging outlet (or from your laptop/ PC's USB Port if the optional USB Charging Cable is provided).
2. When the LED light indication is red, the headset is charging.
3. The LED light indication goes off when the device is fully charged.

**6. Pairing With Bluetooth Mobile Phone**

Pairing is the process of connecting your headset with your mobile phone. Before using the headset with your mobile phone, you must pair both devices. If you wish to use your headset with a different mobile phone, you must reinstate the pairing process with your intended Bluetooth mobile phone.

**7. Pairing Bluetooth Stereo Headset to Mobile Phone**

1. Switch to pairing mode by holding onto the MFB button (approximately 6 seconds) till both Blue/Red LED lights appear.
2. The LED lights will blink simultaneously in pairing mode.

All specifications are subject to changes without further notice

- 5 -

3. Turn on the mobile phone and place it within 10 meters to the headset.
4. Initiate the mobile discovery feature on your mobile phone. Refer to your mobile phone's user guide on pairing.
5. Enter the default pin code "0000", when prompted by your mobile phone system for the pin code.
6. The blue LED blinks at a regular interval when both devices are successfully paired.

**8. Powering Up**

**To turn ON the Bluetooth Stereo Headset**

Press and hold the "MFB" button for four seconds and the flashing Blue LED light indicator comes on.

**Note:**

Do not hold the button down for more than 6 seconds when turning the headset on or else it may switch to its pairing mode. If this happens, turn off the headset and repeat the process for turning the headset on.

**To turn OFF the Bluetooth Stereo Headset**

Press and hold the "MFB" button until the LED light indication goes off.

## 9. Using the Call Functions of Bluetooth Stereo Headset

### Making calls from your mobile phone

Dial directly from your mobile phone. The call is automatically connected to your headset.

### Marking calls using voice dialing

(Dependent on mobile phone support)

Press the "MFB" button once and call out the name of the person for the call to be placed.

### Receiving Calls

You must configure your mobile phone to answer calls directly on your headset. Refer to your mobile phone user guide for instructions for initiating this feature. When your mobile phone rings, press the "MFB" button on the headset to connect the call.

### Ending Calls

When you have finished your call, press the "MFB" button on the headset to disconnect the call.

All specifications are subject to changes without further notice

- 7 -

### Rejecting Calls

Hold onto the "MFB" button for 3 seconds to reject an incoming call.

### Redial Last Outgoing Call

Press the MFB Button twice, and the last outgoing call will be placed.

### Transferring calls between Bluetooth Stereo Headset and Mobile Phone

Headset to Mobile Phone-During a call, simply press and hold either "V+" or "V-" buttons for 3 seconds and the call is routed to your mobile phone. Mobile Phone to Headset-Press the "MFB" button once and the call is routed back to your mobile phone.

### 10. Listening To Stereo Audio From Bluetooth A2DP Enabled Mobile Phones/ Audio Devices

Your Bluetooth Stereo Headset is capable of high fidelity stereo playback on A2DP enabled Mobile Phones/Audio Devices. Please refer to your Mobile Phone/Audio Device User Guide for more information.

### Start Audio Playback

Ensure that your headset is connected in Advanced Audio profile. Press "MFB" button once to play. To pause, simply press "MFB" button once.

All specifications are subject to changes without further notice

- 8 -

### Forward/ Backward Track

Toggle between the "⏮" and "⏭" button-until you have reached the desired track.

### Answering A Call When Playing Music

Press the "MFB" button and the call will be connected. Audio playback is put on mute when there are incoming calls from the active connection. The audio playback resumes as soon as the call is terminated. (Dependent on your device supporting this feature)

### 11. Adjusting The Volume

Press the "V+" button to increase volume or press the "V-" button to decrease the volume. Repeat this procedure until you have reached the desired level.

### 12. Connection Link/Between Bluetooth Stereo Headset And Mobile Phone

Your mobile phone will always indicate a headset icon whenever your headset is paired. If the icon is not present, a reconnection can be established by manually

selecting the headset from your mobile phone's Bluetooth menu. If your headset is set as an authorized Bluetooth device on your mobile phone, an automatic reconnection can be established by pressing the headset's "MFB" button once.

- 9 -

## 13. Master Reset

To restore your headset to its original settings, press and hold both "V+" and "V-" for approximately 10 seconds until both Blue/Red lights appear. Press and hold both "V+" and "V-" for another 3 seconds. The process is complete when the headset turns itself off.

## 14. Care and Maintenance Headset:

- (1) Consider turning your headset off before placing it in your pocket or bag. If the "MFB" is accidentally depressed, your mobile handset may place an unintended call.
- (2) Do not expose the headset to liquid, moisture or humidity, as it is not waterproof.
- (3) Do not use abrasive cleaning solvents to clean the headset.
- (4) Do not place the headset in high temperature, as it will result in an explosion.
- (5) Do not expose the headset to contact with sharp objects as this will cause

scratching and damage.

- (6) Do not stick anything inside the headset as this may damage internal components.

All specifications are subject to changes without further notice

- 10 -

- (7) Do not attempt to disassemble the headset, as it does not contain serviceable components.

## 15. Safety Information

- (1) Check local laws regarding use of a mobile handset and headset while driving. If you use the headset while driving, ensure your attention and focus remains on your responsibility of driving safety.
- (2) Never allow children to play with the headset. Small parts may be a choking hazard.
- (3) Observe all signs that require an electrical device or RF radio product to be switched off in the designated areas. These could include hospitals, blasting areas, and potentially explosive atmospheres.
- (4) Turn off your headset prior to boarding an aircraft. Do not use your headset in an aircraft.
- (5) Never mount or store your headset over any air bag deployment area serious injury may result when an air bag deploys.
- (6) Do not open or mutilate the built-in battery.

## 16. Product Specifications

Bluetooth compliance:-----Bluetooth v1.2  
 Supports profiles:-----HSP, HFP, A2DP and AVRCP Profiles  
 Output power:-----Class 2 device  
 Operating range:-----Up to 10m  
 Operating frequency:-----2.402GHZ~2.480GHZ  
 Support multiple paired Device:-----Up to 8 Bluetooth devices can be paired  
 Charger type:-----5.0V~5.5V (type 300mA)  
 Charging time:-----2 hours  
 Standby time:-----Up to 200 hours\*  
 Talk time/ Play time:-----Up to 8 hours\*  
 Audio streaming format:-----SBC Max 200kbps, 48.000KHZ  
 Audio frequency range:-----20Hz~20,000HZ

\* Talk Time and Standby Time very depending on phone models, Bluetooth receiving mode and networks.

**17. Certification and Safety Approvals/General Information**

- 17.1 The device is CE , FCC and BQB approved.
- 17.2 Federal Communication Commission(FCC) Statement :
- 17.2.1 Rule15.21 : You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
- 17.2.2 Rule15.105 ( b ) : This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and

All specifications are subject to changes without further notice - 13 -

on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**17.3 European Union Directives Conformance Statement**

We, Mobis Technology Ltd. declares that this product: Bluetooth portable speaker with hands free function is conformity with the appropriate standards EN300328, EN301489-1, EN301489-17, EN60950, EN50371. In accordance with the council directive 1999/5/EC.

**17.4 Bluetooth is a trade mark owned by Bluetooth SIG, Inc.**
