

Bluetooth Car Kit

User Manual

Article Number: PK-06

Introduction

The Just Mobile Bluetooth Car Kit provides handsfree communication when using cell phones. It requests no professional installation. This user manual focuses on establishing a connection with your mobile phone. You need to have a phone with embedded Bluetooth capability. The phone can be tucked away in your pocket or in a bag while you handle incoming or outgoing calls, and adjust the volume up or down using the buttons on the car kit. The power for the device comes from the car cigarette lighter jack. This device utilizes Bluetooth wireless technology. Any device that you want to work with this car kit must be compatible with Bluetooth technology version 2.0 that supports Bluetooth HEADSET and/or HANDSFREE profile.

Product Features**Specifications**

Compatibility	:Bluetooth 2.0+EDR HEADSET profile and HANDSFREE profile
Pairing distance	:It is recommended that the distance between the device and cell phone is as close as possible with no solid objects interfering.
Working distance	:Up to 10 meters (best fit in the car)
Frequency band	:2.4GHz ISM band

Speaker power :1W
Power :12V~24V cigarette lighter jack
Power consumption :100mA during talking

Setting Up

1. Plug the car cigarette lighter head into the cigarette lighter socket.
 2. You can loosen the FIXING SCREW to adjust the device vertically to fit your car as well as turning horizontally to face the device to the speaker. You can also lift up the MICROPHONE tube to increase sound sensitivity.
- * When you turn off the engine, the Car Kit will memorize the latest power status.**

Pairing

1. Ensure the Car Kit is switched off.
 2. Hold the "Hang Up" button for more than 6 seconds until you see a LED flashing rapidly and you will hear a rising and falling tone.
 3. Ensure that the mobile phone is less than 1 meter away and that Bluetooth is activated on your mobile phone.
 4. Put your mobile phone in search mode for new Bluetooth devices. When you are asked for a PIN code on the mobile phone, please press the following PIN code: "1234".
 5. When pairing has been completed successfully, a dual-tone melody shall be heard.
 6. Every time you turn on the Car Kit, it will attempt connection to the last mobile phone that you have paired with.
 7. Pairing mode will be timed-out automatically after 60 seconds, at which a dual-tone melody will be heard.
- * When you use the Bluetooth Car Kit for the very first time, it will get into the pairing mode automatically (in factory setting mode)**

Auto Answering or Manual Answering

Switch it up or down for selecting "Auto Answering"(A) or "Manual Answering"(M) for an incoming call.

If "M" appears on the switch it means that Manual Answering is enabled. Answer the call using the answer button.

If "A" appears on the switch it means that Auto Answering is enabled. The call will be answered automatically after 1 - 3 rings or depending upon your mobile phone settings.

Storage of the Car Kit

1. Always store the Bluetooth Car Kit safely. It is not suitable for children.
2. Avoid storage in direct constant sun light.
3. Do not expose the Bluetooth Car Kit or any of its supplied parts to rain or other liquids.
4. If you wish to clean the Bluetooth Car Kit, please use a dry, soft cloth.

Notice

Please make sure that the Bluetooth Car Kit has been shut-down before leaving the car. Because some models of vehicles still supply power to the cigarette lighter jack after you turn off the engine.

「 Press and Hold: “+++” 」 : Press and hold for more than 6 seconds

LED Indication

Phone Connected : LED on

Phone Disconnected : LED off

Certification and Safety Approvals/General Information

- 1 The device is CE,FCC, BQB and E-mark approved.
- 2 Federal Communication Commission(FCC) Statement
 - a. Rule15.21 You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
 - b. Rule15.105b This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- 3 European Union Directives Conformance Statement
 We, Mobis Technology Ltd. declare that this product:
Bluetooth handsfree Car Kit (PK-06) is conformity with the appropriate standards EN300328, EN301489-1, EN301489-17, EN60950, EN50371.
In accordance with the council directive 1999/5/EC.
For more information, please visit: <http://www.just-mobileonline.com>
- 4 Bluetooth is a trade mark owned by Bluetooth SIG, Inc.

Caution

1. Important information regarding safe and efficient operation. Read this information before using the product. Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
2. Operation is subject to the following two conditions:
 - a. this device may not cause harmful interference, and
 - b. this device must accept any interference received, including interference that may cause undesired operation of the device.
3. FCC RF Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operation instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operation in conjunction with any other antenna or transmitter.
